BELLE BOYD.

BELLE BOYD IN CAMP AND PRISON. Written by Herself. With an Introduction, by GEORGE AUGUSTA BALA. 12mo. pp. 464. Blelock & Co. The unsavory Sala introduces this story of expericolor; but he cannot relieve it from the burden of intolerable monotony and dullness. Belle was quite at home on the rampage; her delicate fingers could bandle sword and pistol like any swashbuckler; she did her State some service (or disservice) by her alertness and enterprise as a spy; but the art of writing readable English is not one of her accomplishments. It seems the invincible lady belonged to a fine old Virginia family in the valley of the Shenandoah. She was only about seventeen years old when the Rebellion broke out. She had been retted as a child by affectionate parents, and was one of a happy circle of brothers and sisters, now scattered to the winds by the storms of war. At the age of sixteen, she was supposed to have completed ber education, and was brilliantly launched in the stream of Washington society. It was the Winter previous to the outburst of war; the young damsel had no thought of the volcano that was preparing its hidden fires beneath her feet; she sailed merrily on the surface, with the crowd that eat and drank, dined and danced, were married and given in marriage, little dreaming of the vortex of blood into which she was so soon to plunge.

Upon the call for troops in the Rebel service,

Belle's father was the first to volunteer. Her home had become desolate and lonely. A general sadness pervaded the household. She tried to while away the long Summer days by the aid of books, and in preparing little dainties for her father in the camp. But she soon began to tire of this. The life was too tame to suit her temperament. She determined, at all hazards, to pay a visit to the camp. Having made up a party of young friends for an expedition to headquarters, she soon found herself among the gay scenes at Harper's Ferry. Here all was festivity and merriment. The Rebel officers were as jolly as though still in the piping times of peace. The ladies cast off all care, and rushed headlong into the pleaspres of the hour.

But this frenzy of enjoyment could not be of long duration. The advance of a Union army was anmounced, and early in the morning of July 3, they were startled by the roar of artillery and the rattle of musketry. Stonewall Jackson's men were in full retreat through Martinsburg. Belle was in the hospital at the time, with her negro maid and some ladies of her acquaintance, in attendance upon two Southern soldiers, who were lying side by side with fever. Her first adventure with the Yankees here took place, which she describes in terms evidently colored by her imagination. "I was standing close by the side of one of these poor men, who was justhen raving in a violent fit of delirium, when I was startled by the sound of heavy footsteps behind me and turning round, I confronted a captain of Fed eral infantry, accompanied by two private soldiers He held in his hand a Federal flag, which he pro ceeded to wave over the bed of the sick men, at the my looks, 'Sir, these men are as helpless as babies and have, as you may see, no power to reply to your insults.' 'And pray,' said he, 'who may you be, maid answered him, 'A Rebellady.' Hereupon he turned upon his heel and retired, with the courteous remark, that, 'I was a --- independent one, at all events.

ence, which called forth somewhat too violent ex- ble apology. pressions of patriotism from the Union soldiers who were in possession of the village. Belle's blood was up, and the effect shall be related in her own words. A new edition of the Rev. William Hagues

Fortunately for us, although without my orders, my negro maid promptly rushed up stairs, tore down the obnoxious emblem, and before our enemies could get possess.

"Unristian Greatness in the Citizen," and others. An incident of some little interest is related in the preface concerning the fortunes of the volume on its original publication. Several copies were consigned by the publisher to his correspondents in Richmond. An article composed state of the receiver is added to a list of the most. The Chicago and North-Western Railway Company Composed states and the property of the volume on its original publisher to his correspondents in Richmond. An article composed state of the receiver is added to a list of the most. sion of it, burned it. They had brought with them sion of it, burned it. They had brought with them a large Federal flag, which they were now preparing to hoist over our roof in token of our submission to their authority; but to this my mother would not their authority; but to this my mother would not cendiary by the newspapers, every copy was sent back.

Slavery question appeared about the same time in the columns of this journal, which caused so much excite ment in Richmond, that the work was denounced as intentional to their authority; but to this my mother would not cendiary by the newspapers, every copy was sent back.

Slavery question appeared about the same time in the columns of this journal, which caused so much excite ment in Richmond, that the work was denounced as intention. The carriage of 39.92 per cent.

Channing's essay, which treats the subject of "Intention" with masterly ability. It commences with an accurate exposition of the principal theories on the carriage of 39.92 per cent.

The carriage of 39.92 per cent.

The carriage of 39.92 per cent.

The carriage of the Great Western Railway of the carriage of the Great consent. Stepping forward with a firm step, she to the publisher, and the people of the South warned question maintained by previous writers, as Descartes. \$53,110 60; 1864, \$43,345 84]; increase, \$9,764 75]. said, very quietly, but resolutely, 'Men, every member of my household will die before that flag shall be raised over us.' Upon this, one of the soldiers, thrusting himself forward, addressed my mother and myself in language as offensive as it is possible and myself in language as offensive as it is possible. Level at the original published, after an interval of several years, with the original published, after an interval of several years, with the original published, after an interval of several years, with the control of the same source, which might prove as dragons' teeth, and spring and Bain, and then proceeds to reconsider the subject from his own point of view. Mr. Channing's discussion thows great analytical acuteness—logical discrimination, force of reasoning, and clearness of expression. The Scotia brings later London dates. On the nation was roused beyond control; my blood was Dr. Hague as an eloquent orator and an able writer literally boiling in my veins; I drew out my pistol challenges the interest of the public in the productions of his pen, and we trust that the present edition of his place in modern philosophical literature. wounded, and soon after expired."

From this time, she made little secret of her active devotion to the interests of the enemy. Her would be of the greatest advantage to the Rebels. On being warned of the dangers of her procedure, her "little rebel heart" was on fire; she defied the military authorities who held her in their power; and thought only of mischief and revenge. Here is an account of one of her exploits in which she takes a deep maidenly pride.

an account of one of her exploits in which she takes a deep maidenly pride.

"I was riding out one evening with two young officers, one a cousin and the other a friend, when my horse, a young and high-spirited creature, took fright, and ran away with me. Notwithstanding all my efforts, I failed to stop him until he had carried me within the Federal lines, a goal to which my companions could not wenture to follow me. I felt rather uncomfortable, not knowing exactly how to act; but I soon made up my mind that, for this once, at all events, valor would be the better part of discretion, if not prudence itself, so, riding straight up to the officer in command of the picket, I said—'I beg your pardon—you must know that I have been taking a ride with some of my friends; my horse ran away with me, and has carried me within your lines. I am your captive, but I beg you will permit me to return. 'We are exceedingly proud of our pleantiful captive,' replied one of the officers, with a bow, 'but of course we cannot think of detaining you.' Then, after a moment's pause, he added, 'May we have the honor of escorting you beyond our lines and restoring you to the custody of your friends! I suppose there is an ofear of those cowardly Rebels taking us prisoners? 'I had scarcely hoped,' I replied, 'for such an honor. I thought you would probably have given me a pass; but since you are so kind as to offer your services in person, I cannot de otherwise than accept them. Have no learn gentlemen, of the "cowardly Rebels." They little thought how those words, 'cowardly Rebels." They little thought how those words, 'cowardly Rebels. 'rankled in my beart. Off we started; and imagine their blank looks when, soon after they had escorted me beyond their lines, my Confederate friends, who had been auxiously waiting for me, rode out from their ambush and joined the party. All four looked surprised and embarrassed. I broke the general silence, by saying, with a laugh, to the Confederates, 'Here are two prisoners, that I have brought you.' Then I revolied. Good God! the Rebel spy? 'So be it.

I revolied. Good God! the Rebel spy? 'So be it.

rest at the command of the Secretary of War. She was escorted on the way to Washington by a troop of four hundred and fifty men, and at length safely lodged in prison. Her description of prison life in the Old Capitol is filled with high-flown indignation at the treatment she received from the authorities, though by her own showing, she was guilty of the feminine gender, with thick patches of rosenoyance in her power. Released from her captivity, by an exchange of prisoners, she visits the Gulf States in the South where she is received like a authority that the second and third volumes of the 'Vie second Joan of Arc. Her vanity was intensely gratified by the ovations that attended her progress, and she makes no attempt to conceal the flutterings of heart in consequence. After her release from her second imprisonment in Washington, which was effected by the lenity of our Government in commuting her sentence, she gives a tedious account of her adventures previous to embarking for Europe. The vessel in which she sailed was captured by a U. S. ship-of-war, and she was intrusted to the charge of Lieut. Hardinge, who fell in love with and joined the Rebels as the price of her hand. Belle's picture of her future husband is naïve in the extreme, but is in perfect harmony with the wonderful absence of reserve, which is characteristic of her book. The Lieutenant was not precisely a subject for Grecian sculpture; a candid judge could not have pronounced him handsome; though he had large, bright eyes, and his dark-brown hair hung down his shoulders in a way to kill. Still, he had dinge, and myself, were scated together close by the wheel. The moon shone beautifully clear, lighting up every thing with a brightness truly magnificent; the ocean, just agitated by a slight breeze that swept over its surface, looked like one vast bed of sparkling diamonds, and the rippling of the little waves, as they struck the vessel's side, seemed but

> which Captain H. had been regaling us. "' Here will we sit, and let the sounds of music Creep in our ears; soft stillness, and the night Become the touches of sweet harmony.'

Become the touches of sweet harmony.'
"Presently Captain H. went forward on the bridge and conversed with Mr. Hall, the officer on watch. We two were left to ourselves; and Mr. Hardinge quoted some beautiful passages from Byron and Shakespeare. Then, in a decidedly Claude Mel-notte style, he endeavored to paint the home to which, if love could but fulfill its prayers, this heart would lead thee!' And from poetry he passed on to plead an oft-told tale,"

It at once occurred to her ingenuous soul that she might make some capital for the Rebel cause by the infatuation of the Lieutenant. She fed him alternately with hope and despair till she had fast bound him in her silken chains, and ready to be enticed from his allegiance to his country. The were at length married in London; the Lieutenant took sides with the Rebels; and Belle proceeds to prepare this volume for an unoffending public. The same time calling them '- Rebels.' I immedi- value of her work consists almost exclusively in the ately said, with all the scorn I could convey into illustrations which it presents of Southern feeling. Belie's hatred of the North is a monomania. Her abuse of the Union officers and soldiers, though intemperate and disgusting, may be ascribed to a perinsults. 'And pray,' said he, 'who may you be,
Miss!' I did not deign to reply; but my negro verted education and an impulsive temperament,

Miss!' I did not deign to reply; but my negro verted education and an impulsive temperament,

Miss!' A Robelledy,' Hereupon he rather than to any natural malignity of heart. But the weak, feminine vanity which pervades its pages, and the undisciplined, desultory, and unscrupulous mental habits which it betrays, seem to be a part of her own nature, and scareely admit of any charita-
